Dear mr. weisberg,

Thank you for your recent letter concerning The J.F.K. assassination.

I am sorry if I gave you the impression I was trying to get a copy of everything in the archives, I am not. What I am interested in obtaining are only a few pages of the transcripts, The January 27, 1964 meeting, The only other matterial I am looking for are 2 commission exhibits, C.E. 397, C.E. 387. Since I can not buy nor find the W.C. Report.

also I was reading C.E. 391 and found out that Georg Burkley recived The negitives of the photographs taken at the autopsy, and it strikes me funny that he signned The Papers pertaning to the autopsy, he was just the presedent doctor when the Presedent was alive,

I really appreciated your suggestions.

Thank You very much,

David Ferrie
